

## Permit Application

**Permit Required if:** Adding/relocating 10 or more fire sprinkler heads, adding any single initiating device, or adding/relocating 5 or more notification devices. If a permit is not required, scope of work and work completion letters only need to be submitted to the Fire Department. All permitted fire alarm work requires acceptance testing. All permitted sprinkler work requires visual inspection. Adds/relocates of 20 or greater heads require a hydrostatic test.
