

FARMERS BRANCH

Garbage Container Screening Requirements

Ordinance No. 2826 states the following:

“All garbage, trash, or refuse containers shall not be located in front of the main building and must be screened from view of the public. The container screening enclosure shall consist of minimum 6 feet masonry screening walls in which the exterior of the walls shall be architecturally consistent with the primary building and solid opaque metal gates shall be provided, primed and painted to match the masonry screening walls. In addition to the screening walls, shrubs, trees or other landscaping shall be required as approved by the Building Official.”

Listed below are some examples:
